And, well, these expectations are getting absolutely right. Specifically, the game plot begins with the story of a boy who moved to another neighborhood and met a strange neighbor who is completely unselfish and seems to have some bad intentions. So player's job is to figure everything out. So to protect other people, the main character starts stalking his neighbor. That's why it's not your mission to get caught by this person. Such an application such as Angry Neighbor will delight users of all ages and genre preferences, because of high quality technical features and also this application allows users to set up their imagination and it leaves no one to be bored while playing. Although this game has old-fashioned graphics, the overall gameplay is rather addictive. Therefore, fans of the genre of such a game will be happy for several hours and will find this app a good time killer, despite the fact, there are many moments that should be better though-out. Overall, Angry neighbor is a big project among those who developed in that atmosphere, besides it is made by compatriots and that is already super cool, because of the unique style of RPGs. So to deal with these missions, players need to be in full attention and need to take every detail for serious.
